

BARRON EMPEROR INTERNATIONAL

ADDRESS: Sheikh Zayed road - Dubai

Who are they?

- The Barron group of companies deal with the trading of quality steel products (including line pipes, fittings, flanges, valves and gaskets). The stock and distribute in a variety of locations including parts of the United Arab Emirates, the Kingdom of Saudi Arabia, Qatar, the United States of America, China and the European Union.
- Their products are supplied to the petrochemical, industrial, marina, fire protection, beverage and sanitary system, MEP, and offshore and onshore sectors.

What do they offer?

- They offer an internship programme in website designing and advertising, allowing you to hone your skills.

How will this internship benefit you?

- They provide a comfortable and supportive work environment which teaches you the importance of critical and quick thinking and how to use it in a workspace. It also provides further insight into company ethics and how to conduct yourself in a work environment.
- It will hone your communication skills and build up confidence with speaking on a formal platform, and provide insight into the basics of commercial website designing and gross advertising.

"I was able to sharpen my researching and reasoning skills and delve deeper into the editing and designing processes involved with the creation of a website."

- Harshini Bhalla

"This internship has increased my awareness of the ethics and regulations to be followed in a work environment and I have developed a greater understanding of the type of work that employees do for an international organization." -Harshini B.

Veteran Tips

- This internship exceeded all my expectations as I was given the opportunity to prove my worth and develop my social skills. I learned how to manage my workload effectively in a short period of time and also how to maintain self-discipline in an unfamiliar environment.
