Who are they?

- Founded by Dr Jamil Ahmed, Prime health care group LLC has a vision of becoming the most "The most respectable healthcare provider in the world2 by offering personalized, comprehensive, affordable and quality healthcare.
- With state of the art equipment and patient-friendly interiors, they dedicated to making a benchmark for superior health care solutions.

What do they offer?

- This internship opportunity offers a first-person view of the hospital experience. They are asked to work on research based on patient experience in all the three major departments: Outpatients, Inpatients and Emergency patients.
- They are required to either track down the time a patient spends on each step of their hospital experience or evaluate patient experiences at the call centre.

How will this internship benefit you?

- The internship allows its interns to follow the patients and have an understanding of what exactly the doctors have to do. They will also be able to explore all the departments at the hospital and sometimes watch procedures. This will help you understand whether you want to follow such a career or not.
- However, the interns are not allowed to shadow doctors or nurses.

"This internship, instilled in me a strong work ethic and made me understand the real stresses of a day to day job and how to overcome these hurdles to truly succeed."

- Druv

"I realized how much time goes into every small detail and it cumulatively gives a large outcome, making me alert about how I spend time in my daily life."

- Anish

Veteran Tips

- This internship allows you to understand the financial aspect of a hospital and make you realize that this is also a huge sphere for its making. You understand how a medical degree is not compulsory to work at a hospital and opens your eyes to all the different positions available.
