

SAE INSTITUTE DUBAI

ADDRESS: Block 2, Ground Floor, Knowledge Park, Dubai, U.A.E

Who are they?

- Originally founded in 1976, SAE Institute Dubai is one of SAE's branches of educational institutions in the U.A.E.
- It offers students the opportunity to opt for courses in the fields of film, design, animation, audio and games.
- SAE's alumni often delve into the industries of creative media, mass communications, and graphic design.

What do they offer?

- The chance for interns to shadow an experienced creator for a specific time period, in order to learn about the processes that go into design and animation.
- Regular classes which interns attend to gain insight into the world of multimedia and design.
- Creative projects, such as the development of a music video which the interns must star in, produce, direct and edit themselves.

How will this internship benefit you?

- Extensive knowledge on operating techniques for technological equipment, such as cameras.
- Establishment of a steady work ethic, due to the emphasis on punctuality and discipline at SAE.

"The internship allowed me to create content that I wouldn't have been able to create on my own or without the professionals' expertise at SAE.

- Nitanya Ghosh

"It (the internship) was an eye opener to how the film, audio and design industry works."

- Nitanya Ghosh

Veteran Tips

- SAE is an exceptional choice for you if you wish to explore the office-setting and have an authentic experience of employment in creative design.
- While the internship may not offer a very kinesthetic approach to your learning, you will undoubtedly have a chance to practice your passion in a welcoming environment, guided by knowledgeable mentors.
- You will also have the opportunity to survey the spheres such as animation, design, music, game development and more.
